

# Dare to compare!

## Did you know that not all irrigation companies are created equal?

When considering a company to install your inground sprinkler system, you should ask the following questions:

### What is your Warranty?

When you install a Nutri-Lawn Sprinkler System on your property, you do so with confidence.

**Our 5-YEAR WARRANTY** (from a company with 20+ years of history) protects your investment and saves you money on service.

**nutri-lawn**

**Other  
Company**

☐

### Do you have references?

**Our references are proudly posted on our website monthly.** Nutri-Lawn services THOUSANDS of residential sprinkler systems in the Burlington area and are a BBB accredited company with an A+ rating.

☐

### Who does the interior plumbing work?

Nutri-Lawn only uses LICENSED PLUMBERS with strict specifications that include backflow protection to protect your drinking water.

☐

### Do you install high quality products?

Nutri-Lawn only installs the three major professional series brands – HUNTER, RAINBIRD and TORO. These brands result in a satisfying, high quality and reliable system. There is no comparison to the hardware store brands.

☐

### How can I reduce my outdoor water consumption?

Nutri-Lawn is committed to the responsible use of our natural resources and saving you money on your water bill. As such we offer a 'Smart Water System' option with all quotations. This systems can reduce outdoor water consumption by 50% through the use of new technology and products.

☐

### Do you complete the utility locates?

To avoid you and your neighbours inconvenience and frustration, Nutri-Lawn will NOT start any work until all locates (Bell, Gas, Hydro, Cable, Fibre) are completed. This ensures a safe work environment and no added expense from DAMAGED UTILITIES.
